GO INTO SPACE

WITH
DR SHEILA

Instructions

1. Decorate and colour the helmet
2. With the help of an adult, pierce a hole in the two places marked X
3. Cut along the dotted lines
4. Thread a piece of string through the holes and tie in place
5. Put the helmet on and you are ready to join Dr Sheila and the jellyfish in space

No Printer? No Problem!

Can you get a jellyfish into space?

You will need

- A pair of scissors (ask an adult for help using these!)
- An empty cereal box/thin card
- Colourful pencils/pens/paint
- Things to decorate your helmet – tin foil, paper, material
- A hat

To Do

- Draw round your hat onto the cereal box or other thin card and cut out
- Sketch in the visor or space for your eyes- you could ask an adult to hold the helmet against your face and carefully mark the top, bottom and sides of your eyes to get the position right.
- With the help of an adult make a hole in the middle of your visor and carefully cut out
- Decorate to create the helmet you require

What do you think?

- Who else might wear this helmet?
- What other space or astronaut books do you know?
- What other types of characters wear a helmet?
- Plan your own design in the space below or on a piece of paper.
