

Marie Curie

the scientist who never
stopped asking questions

TODAY I AM... someone who likes asking questions

Inspired by the enquiring mind of **Marie Curie**, your discovery challenge is to:

- * discover 3 new facts about someone or something new to you
- OR
- * decide - what the biggest questions are that you would like to ask today?
- * where might you look you find the answer
(tip: be creative... ask an expert, research in the library, how could you find the answer?)

Notes

"Life is not easy for any of us.
But what of that?"

We must have perseverance
and, above all,
confidence in ourselves.

We must believe that we
are gifted for something and
that this thing must
be attained."
